

XEOLITH® Lithium Sulfate Monohydrate (Industrial Grade)

Product Description: XEOLITH® Lithium Sulfate Monohydrate (Industrial Grade) is a white and odorless, free-flowing powder. It accelerates cement hydration reactions, shortens setting time and enhances both early and long-term strength.

Applications: XEOLITH® Lithium Sulfate Monohydrate (Industrial Grade) is used as an effective accelerator in Portland cement and other mineral binders. It is used in the production of glass, batteries, food and pharmaceuticals.

Chemical Formula: $\text{LiSO}_4 \cdot \text{H}_2\text{O}$

CAS No. : 10102-25-7

Specifications:

Parameters (units)	Typical specifications
Appearance	White powder
Lithium Sulfate Monohydrate (%)	≥ 97.0

Packaging: Material is available in 20 kg sacks. Other packaging available upon request

Storage: Product should be stored in a cool and dry place in sealed, original containers. For further safety information refer to product SDS available from your Bisley and Company contact.
