

Product Information

E-Glass Chopped Strand 12 mm fiber

Product Description:

E-Glass chopped strand fiber is composed of a calcium aluminoborosilicate glass which has low dielectric properties meaning it builds up no static. Its high temperature stability makes it useful in fire resistance materials.

Applications:

E-Glass chopped strand fiber is widely used as an additive to reinforce composite materials such as gypsum and fiber glass composites. It is used in papermaking and subsequently filtration media, adhesives, coatings and surfacing veils.

Specifications:

Parameters (units)	Specifications
Filament diameter (μm)	Approx. 13
Yarn density (TEX)	150 \pm 20
Moisture content (%)	< 0.2
