

DURAFAST™

CSA | CALCIUM SULFOALUMINATE CEMENT

DURAFAST™ SUPER FAST

Product Description

DuraFast™ Super Fast combines calcium sulfoaluminate cement with an optimal proportion of calcium sulfate anhydrous and other additives to create a ready to use CSA Cement. The DuraFast™ Super Fast can be added directly into most Portland cement based formulations to give excellent performance and offers formulators an easy to use product that cuts down the number of additives required.

Suitable Applications

DuraFast™ Super Fast is suitable as an additive in the following applications:

- Fast setting concrete and precast products
- Self-Levelling Flooring Compounds
- Tile Adhesives, Plasters & Mortars
- Rapid setting cements
- Non-shrink Grouts
- Water plugs
- Concrete repair mortars suitable for high early strength

Performance Data

Performance data will vary depending on the Portland cement content and quality and is subject to the final formulation.

Handling and safety

For safe handling instructions, please consult the MSDS.

Packaging

DuraFast™ Super Fast is available in super sacks and 50lb bags with pallets.

Shelf life

For best use, product should be consumed within 12 months of manufacturing date.
